1. Receipt is acknowledged of the response filed on 30 August 2007, which has been entered in the file.

Allowable Subject Matter

2. Claims 2, 4-6, 8, 10-17 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Although, the best prior art of record to De Borde teaches to verify the integrity of the smart card for detecting external circuitry, he fails to particularly teach or fairly suggest that the terminal comprise a first and second measure circuit for measuring a first/second current for comparing purposes and the physical interface is calibrated to create at least one viable electrical property at the physical level for allowing normal transaction with the smart card but causing the interface to fail if the circuit extending arrangement is coupled to the physical interface as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
